# EXPERIMENT 1

## Create a Kanban Board to Visualize the Tasks.

## □ Create Columns for To Do, In-Progress and Done.

## □ Add At least 5 Sample Tasks

## □ Move the Tasks across the Columns to Simulate the Workflow.

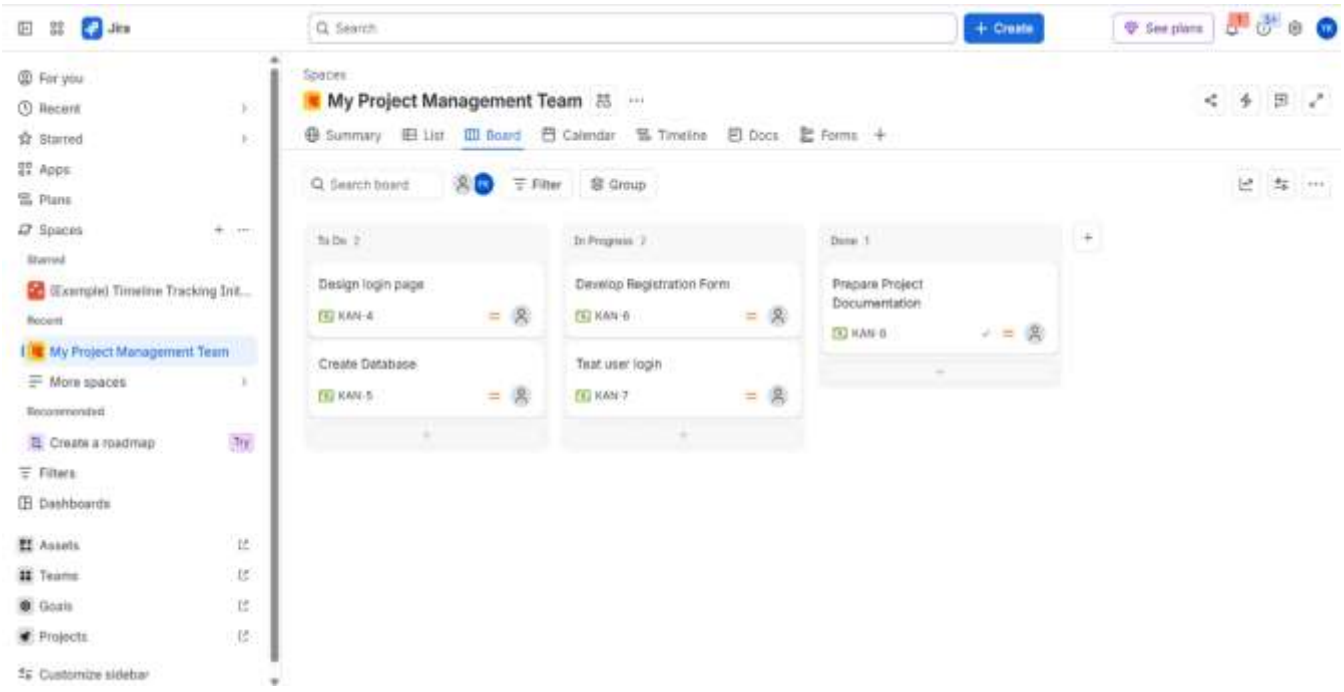

### 1. AIM

To create a Kanban Board using Jira or Trello to visualize and manage project tasks by creating three columns: To Do, In-Progress, and Done. Add at least five sample tasks and move them across the columns to simulate the workflow.

### 2. PROCEDURE

1. Open Jira or Trello and log in to your account.
2. Create a new project or board and select the Kanban template.
3. Create three columns:
    - To Do
    - In-Progress
    - Done
4. Add at least five sample tasks to the To Do column.
5. Move selected tasks from To Do to In-Progress when work begins.
6. Move completed tasks from In-Progress to Done.
7. Check the board to visualize the progress of all tasks.

## OUTPUT

## RESULT

Thus, a Kanban Board was successfully created using Jira with three columns: To Do, In-Progress, and Done. Five sample tasks were added and moved across the columns to simulate the workflow. The project tasks were successfully organized, tracked, and visualized using the Kanban method.
